

TOPOGRAPHICAL INDEX

EUROPE

Norway (Norge)

Dopma Mtn., Trondheim, titanomagnetite, 265

Sweden (Sverige)

Alnö Island, titanomagnetite, 265

Brattfors mine, Nordmarks Odalfält, Värmland, manganhumite, katoptrite, galaxite, manganostibiite, manganosite, sonolite, magnussonite, 133

Grythytte, stilpnomelane, 361 and M37

Klapperud, Dalecarlia, opsimose (= neotocite), 279 and M26

Långban, Värmland, welshite, 129

Pajsberg, stratopöite (= neotocite), 279 and M26

Smålands Taberg, titanomagnetite, 265

Ulvö, titanomagnetite, 265

Denmark (Danmark)

Thorshavn, Strømø, Faeroes, celadonite, 373

Iceland (Island)

Hall, celadonite, 373

Reykjanes and Svartsengi, geothermal sea-water, 209

Finland (Suomi)

Rosendal and Skogböle, Kimito, tapiolite, 477

Sukkula, Tammela, tapiolite, 477

British Isles

ENGLAND

Alderley Edge, Cheshire, osarizwaite, 175

Barrington and Hauton Road, Cambridge, glauconite, 373

Carrock Fell, Cumberland, tsumebite, 176

Gipsy Land, Leicester, chernovite (?), 171; djurleite, 172

Glyndebourne, Sussex, glauconite, 373

King's Garn Gutter, Brook, Hampshire, glauconite, 373

Mill Close mine, Darley Dale, Derbyshire, corundophilite, 171

Seathwaite, Coniston, Lancashire, wittichenite, 177

Shepherds Gutter, Hampshire, glauconite, 373

Turf Pits mine, Grassington, Yorkshire, spencerite, 176

Cornwall

Botallack mine, digenite, 172

Carn Vellan, St. Just, Land's End, garnet, axinite, epidote, hornblende, diopside, 427

Cheesewring quarry, Linkinhorne, danburite, 171; durangite, 172

Chycornish Carn, St. Just, Land's End, epidote, axinite, hornblende, tourmaline, 427

Crowns Rock, St. Just, Land's End, garnet, 427

Dean quarry, The Lizard, djurleite, 172; analcime, adularia pseudomorphous after analcime, 245

Geevor mine, neotocite, 279 and M26

Luxulyan, luxullianite (in situ), 295

Megilaggar Rocks, amblygonite, topaz, 151

Port Isaac, heteromorphite (?), 173

Porthkerris Cove and Point, The Lizard, analcime, adularia, adularia pseudomorphous after analcime, 245; adularia, analcime, calcite, natrolite, quartz, prehnite, stilbite, 509 and M49

Porthoustock, The Lizard, analcime, natrolite, prehnite, calcite, 509 and M49

Redruth, uranospathite, 117

St. Just, Land's End, garnet, axinite, epidote, apatite, hornblende, diopside, 427

South Terras mine, St. Stephen-in-Brannell, francevillite, 172

Stamps and Jowl Zawn, St. Just, Land's End, garnet, calcite, 427

Traboe, The Lizard, analcime, natrolite, prehnite, calcite, 509 and M49

Wheal Alfred, Phillack, agardite, 169

Wheal Cock Zawn, St. Just, Land's End, garnet, axinite, hornblende, 427

Wheal Messer, Lanivet, ilvaite, 173

Wheal Owles, St. Just-in-Penwith, djurleite, 172; triploidite, 176; penwithite (= neotocite), 279 and M26

Devon

Meldon quarry, Okehampton, greenovite, 172; priceite, 175

Ramsley mine, Okehampton, ilvaite, 173

Smallcombe iron mine, Ilsington, ilvaite, 173

Somerset

Cannington Park quarry, djurleite, 172

Combe Farm quarry, Henbury, wulfenite, 298

Merehead quarry, Shepton Mallet, ardenite, 170; djurleite, 172

Kent

Copt Point and Abbots Cliff, Folkestone; Dover; Sandling; and Oxney, glauconite, 373

WALES (Cymru)

Dowlais and Cyfartha Iron Works, Merthyr Tydfil, thau-masite, 290

Nant manganese mine, Llanfaerhys, Rhiw, Caernarvonshire, neotocite, 279 and M26

Treseissyllt, Pembrokeshire, pumpellyite, 81

Y Garn, Pembrokeshire, pumpellyite, 81

SCOTLAND

An Gearna, Ben More, Isle of Mull, corundophilite, 171

Falls of Rogie, Ross and Cromarty, djurleite, 172

Great Cumbrae, Firth of Clyde, tholeiite, 417

Halkirk, Caithness, aegirine, 439

Imachar, Isle of Arran, tholeiite, 141

Isle of Mull, tholeiite, 1

Rhum, peridotite, allvalite, chromite, diopside, olivine, plagioclase, 347

Syke, tobermorite, 229
Tyndrum, *Perthshire*, cadmian tetrahedrite, cadmian freibergite, 280

Inverness-shire

Loch Eynort and *Portree*, *Skye*, tobermorite, 229
Rockall, bazirite, elpidite, α -cristobalite, leucophosphite, monazite, eudialyte, pyrochlore, xenotime, 35

IRELAND

Gortdrum mine, *Tipperary*, amalgam, cinnabar, 170
Inishdawros, *Callow*, *Ballyconneely*, *Connemara*, meta-peridotite, olivine, serpentine, orthopyroxene, augite, hornblende, talc, saussurite, 69
Portnoo, *Donegal*, zincian hercynite, zincian staurolite, cordierite, biotite, almandine, 237

Antrim

Ballyclare, cowlesite, 171
Ballycraigy, *Larne*, tobermorite, 229
Dunseverick, cowlesite, 171

Germany (Deutschland)

BADEN

Menzenschwand, arsenian uranospathite, uranospathite, 117
Wittichen, arsenuranospathite, 117

BAVARIA

Hagendorf, xanthoxenite, 'salmonsites' (hureaulite + jahnsite), 309
Hühnerkobel, xanthoxenite, stewartite, strunzite (?), 309

HESSE

Dehrn, dehrnite (= francolite), 282
Herborn, *Dillenberg*, klipsteinite (a mixture), 279 and M26
Rotläufchen mine, *Waldgirmes*, kidwellite, 137

France

Chanteloube, *Limoges*, tapiolite, 477

Switzerland (Helvetia)

Rhonegletscher, adularia, 453

Spain (España)

Orense, tapiolite, 477

Italy (Italia)

Brentonico, *Verona*, and *Buffaure*, *Val di Fassa*, celadonite, 373
Euganean Hills, *Veneto*, rhyolite, trachyte, alkali feldspar, cryptoperthite, 63
Gometesa mine, *Chiavari*, *Liguria*, neotocite, 279 and M26
Gruppo di Voltri, *Liguria*, tobermorite, 381

Marcano, *Tyrol*, and *Monte Baldo*, *Verona*, celadonite, 373

Olbicella River, *Tiglieto*, *Gruppo di Voltri*, *Liguria*, tacharanite, 383

Olgiasco, *Como*, tapiolite, 477

Pra de la Stua, tobermorite, 229

Val di Fassa, celadonite, 373

Vulsini volcano, pumice, analcime, leucite, 103

Czechoslovakia (Československo)

Maršikov, *Moravia*, tapiolite, 477

Most, *Bohemia*, celadonite, 383

Otov, xanthoxenite, jahnsite, 309

Přibyslavice, xanthoxenite, jahnsite, 309

Austria (Österreich)

Tyrol, talc, 107

ASIA

Turkey (Türkiye)

Mihalliççik, meta-dolerite, augite, omphacite, 435

Mutki, ophiolite, diopside, augite, 511 and M42

Saudi Arabia

Wadi Qatan, nickelian mackinawite, alabandine, molybdenite, cubanite, pentlandite, 284

Pakistan

Sakkakot-Qila area, *Malakand Agency*, aluminian chromite, 155

Warsak, *Peshawar*, hornblende-schist, 405 and M33

India

Makerwali, *Rajputana*, tapiolite, 477

Andhra Pradesh

Binny and *Loya mines*, *Kondapalli*, chromite, enstatite, 406 and M38

Ganginemi, *Kondapalli*, chromite, bronzite, 406 and M38
Seshadripuram Hill, *Kondapalli*, pargasite, 280 and M31

Gujarat

Amba Dongar, magnetite, 463

Dhajala, *Surendranagar District*, meteorite, 493

Donabanda Hill, allanite, 280 and M31

Burma

Mogok, painite, 518

Indonesia

Pomalea-Kolska district, Sulawesi, lateritic Ni ore, 143 and M4, 513

Japan (Nippon)

Aichi Prefecture, neotocite ('penwithite'), 279 and M26

Fuka, tobermorite, 229

Funato mine, Wakayama Prefecture, talc, 107

Heguri, tobermorite, 229

Nichi-Sonogi peninsula, Nagasaki Prefecture, talc, 107

Nodo Tamagawa mine, Iwate Prefecture, neotocite ('penwithite'), 279 and M26

Seikoshi mine, Shiuoka Prefecture, valencianite, 453

Usu volcano, Hokkaido, andesite, 417

AFRICA**Morocco**

Continental shelf off, phosphorite, 221

Angarf-Nord, tapiolite, 477

Ethiopia

Amba Costantino, Wollo, rhyolite, anorthoclase, cryptoperthite, 63

Sierra Leone

Freetown, gabbro, digenite, copper, 111

Nigeria

Godani Station, Kaduna, microcline, 443

Kenya

Homa Mtn.; *Kiahera Hill, Rusinga Island*; *Koru*; and *Rangwa*, magnetite, carbonatite, 463

Zaire

Punia River, tapiolite, 477

Tanzania

Galapo and Marongwe crater, magnetite, 463

Mautia Hill, talc, 107

Mozambique

Serra do Menucué, chromian barian muscovite, 292

South-West Africa (Namibia)

Onganja mine, cuprite, 505

Otjosondu, celsian, barian orthoclase, 294

South Africa

West Driefontein Cave, Carlstonville, Transvaal, sasaite, 401

Witwatersrand, tučekite, 278 and M21

Madagascar (Malagasy)

Cordierite, hydroxyapatite, dolomite, rutile, 481

AMERICA**Greenland**

Gardiner Plateau, Kangerdlugssuaq, titanian clinohumite, 99

Igdlutalik, Julianhåb, emeleusite, riebeckite, nordite, aegirine, narsarsukite, albite, 31

Klokken, Gardar, feldspars, syenite, aplite, 1

Kvanefjeld plateau, Ilimaussaq, tugtupite, 251

Qagssiarssuk, magnetite, 463

Canada

Blow River, Yukon Territory, whiteite, 309

La Blanche Lake, Quebec, titanomagnetite, 265

Peter Prezunka deposit, Yamaska Mtn., Quebec, titanomagnetite, 265

Poplar Creek, British Columbia, stilpnomelane, 361, M37

St. George pluton, New Brunswick, orthoclase, microcline, 391

U.S.A.

Black Hills, S. Dakota, xanthoxenite, 309

Cedar Hill, Pennsylvania, deweylite, 75

Indian Mtn., Cherokee Co., Alabama, kidwellite, 137

Irish Creek, Rockbridge Co., Virginia, kidwellite, 137

Palermo no. 1 mine, N. Groton, New Hampshire, xanthoxenite, 309

Reading, Vermont, talc, 107

Rockford, Alabama, tapiolite, 477

Southbury, Connecticut, tholeiite, 417

Truckee River, Washoe Co., Nevada, celadonite, 373

Volcano Observatory, Kilauea, Hawaii, and *Mauna Loa*, tholeiite, 417

Webster, N. Carolina, deweylite, 75

Arizona

Grand Canyon, amphibolites, actinolite, hornblende, anthophyllite, cummingtonite, gedrite, cordierite, biotite, talc, almandine, 199 and M23

Tombstone, tlapallite, 183

Arkansas

Buckeye Mtn., Turquoise Pit, and Coon Creek, Polk Co., kidwellite, 137

Fodderstack Mtn., Montgomery Co., kidwellite, 137

California

- Coast Range*, stilpnomelane, 361 and M37
Crestmore, tobermorite, 229
Laytonville quarry, Mendocino Co., stilpnomelane, 361 and M37
Stewart mine, Pala, 'salmonsite' (a mixture of hureaulite and jahnsite), 309

Mexico

- Bambollita (La Oriental) mine, Moctezuma, Sonora*, tlapalite, 183
Noche Buena, Zacatecas, tobermorite, 229

Guatemala

- Lake Izabal*, lateritic Ni ore, 143 and M4, 513

Brazil (Brasil)

- Corrego do Urucum, Minas Gerais*, elbaite, 357
Frei Martinho, tapiolite, 477
Guarapuará, Parana, celadonite, 373
Ilha de Taquaral, Minas Gerais, whiteite, 309
Paramirim das Crioulas, Agua Quente, Bahia, bahianite, 179
Rio Grande do Norte, tapiolite, 477
Serra das Almas, Bahia, bahianite, 179

Argentina

- Los Cerillos, San Martín, San Luis province*, sanmartinite, 381

Chile

- Sierra Gorda*, hohmannite, 144 and M9

AUSTRALASIA

Australia

QUEENSLAND

- Ban Ban*, ilvaite, 85
Mount Perry, rutile, 255

NEW SOUTH WALES

- Broken Hill*, ilvaite, rhodonite, hydrogrossular, zincian ilmenite, 85

- Cobar, stilpnomelane*, 361 and M37
Murrurundi, analcime, nontronite, 241
Unanderra, ferrierite, laumontite, heulandite, 385

AUSTRALIAN COMMONWEALTH TERRITORY

- Giralang, stilpnomelane*, 361 and M37

CENTRAL AUSTRALIA

- Harry Creek copper prospect and Johannsen's phlogopite mine, Strangways Range*, cordierite, 89

WESTERN AUSTRALIA

- Alice Mary copper mine, Kundip*, lavendulan, 369
Bali Low copper mine, Capricorn Range, lavendulan, 369
Brookton, sampleite, 369
Bulldog gold mine, Ravensthorpe, lavendulan, 369
Frances Furness gold mine, Marvel Loch, lavendulan, 369
Greenbushes, tapiolite, 477
Hamersley Range, stilpnomelane, 361 and M37
High Range, Lyndon Station, lavendulan, 369
Jimberlana intrusion, loveringite, 187
Jingemia Cave, Watheroo, sampleite, atacamite, weddellite, taranakite, 369
Kambalda, Kalgoorlie, carrollite, siegenite, polydymite, violarite, 93
Kanowna, Kalgoorlie, tučekite, 278 and M21
North Pole deposit, Pilbara, baryte with H₂S-bearing inclusions, 408
Scotia, Kalgoorlie, linnaeite, violarite, polydymite, 93; mackinawite, 516
Strelley, Pilbara, tapiolite, 477
Tantalite gully, Darwin, tapiolite, 477

New Zealand

- Bushy Point, Kaipara Harbour*, clinoptilolite pseudomorphous after calcitic and aragonitic fossils, 410
French Ridge, Lake Wanaka, and *Matukituki*, stilpnomelane, 361 and M37
Omaru district, celadonite, 373
Queenstown, Otago, stilpnomelane, 361 and M37
Upper Seaforth River, central Fiordland, staurolite, 153
Wairere, serpentinite, gabbro, rodingite, pyroxene, hornblende, chlorite, garnet, pectolite, prehnite, xonotlite, rosenhahnite, 45 and M12

New Caledonia

- Lateritic nickel ore, 143 and M4, 513
Diahot, ferrocapholite, 147 and M16
